

Week 11 Reading

Sequential Decision Making

Draft Material — This content is under development and subject to change.

1 Overview

G. G. Garner and K. Keller [1] and R. de Neufville, S. Scholtes, and T. Wang [2]

Please note that **there is an error in G. G. Garner and K. Keller [1]**; the units of storm surge are off by a factor of 10. Watch out for your unit conversions! This means that sea-level rise is emphasized relative to storm surge in the model. Regardless, the methods and qualitative findings are interesting.

2 Discussion Questions

Discussion questions will be posted by the graduate student discussion leader.
